STELLANT SYSTEMS ADDS NEW MEMBER TO BOARD OF DIRECTORS

TORRANCE, CA. July 06, 2022 — Stellant Systems, Inc. (“Stellant”) is pleased to announce that Conrad R. Gagnon, CPA has joined its Board of Directors.

Mr. Gagnon has over 40 years of experience in key executive and financial roles within the Aerospace and Defense industry. As CFO, he has been an integral part of private equity-owned and public companies and has managed numerous mergers and acquisitions, established strong functional areas including IT, accounting, finance, SEC reporting and tax and treasury. Conrad also led the MTSI 2012 IPO and served as CFO of Anaren prior to its sale to TTM Technologies in 2018.

Conrad R. Gagnon

Mr. Gagnon is currently the sole proprietor of CRG Consulting, LLC an executive management advisory services company which partners with private equity firms and its portfolio companies, with a specific emphasis on M&A assessment, integration margin expansion and structuring infrastructure to drive continuous operational improvement and long term shareholder value creation.

Mr. Gagnon said, “Stellant is a well-positioned organization with unique technology that is applicable to a broad range of space, defense, medical and industrial applications. I’m very proud to join the Board to support the management team’s efforts to capture those opportunities and deliver value to its customers, the mission, employees and all other stakeholders.”

Stellant’s CEO, Paul Russell said “Conrad’s addition to our board will have a very positive impact on Stellant’s maturation as a standalone organization and we are fortunate to have him. He is an experienced and trusted source of guidance on financial, management, integration and value creation strategies that will serve Stellant exceptionally well as we continue on our growth trajectory.”

Mr. Gagnon has a Bachelor of Science degree in Accounting & Computer Sciences from Boston College and is a CPA in New Hampshire.

About Stellant Systems

Stellant Systems is a premier manufacturer of critical spectrum and power amplification systems for Space, Defense, Industrial and Medical & Scientific missions for both domestic and international customers. Stellant has three domestic manufacturing facilities and approximately 800 employees.
