## **Stellant Systems Appoints Norm Hansen as Director of Sales**

**TORRANCE, CA., January 30, 2023** — Stellant Systems, Inc. (Stellant), a leading global provider of mission-critical RF and Amplification solutions for high-reliability defense, space, medical, scientific, and industrial applications, is pleased to announce the appointment of Norm Hansen to Director of Sales.

In this capacity, Norm is responsible for managing all sales activities across the entire Stellant enterprise. This includes managing customer and sales channel relationships, achieving order intake goals and helping to identify new growth opportunities and product strategies while maintaining overall successful customer relationships. In this role, Norm will report to Steve Shpock, Chief Operating Officer.

Mr. Hansen has over 35 years of experience in the RF and Microwave industry, beginning with Litton Industries and later with API Inmet as Vice President of Sales and Marketing. He was most recently a business development manager for Times Microwave Systems Military Aerospace. Throughout his career, Norm has held management positions in Sales, Business Development, Marketing, and Product Management.

Norm received his B.S. in Management from Fairleigh Dickinson University.

**Norm Hansen**

“Stellant is a pre-eminent leader with significant heritage in the Aerospace & Defense Military and Space markets, and we will continue to invest in technologies and talent that position us for the future,” said Steve Shpock, COO. “Norm’s longstanding relationships with key players in the industry will showcase Stellant’s broad array of RF Amplification solutions to our existing customers while also building new relationships with customers whose challenges we are well-suited to solve.”

Hansen says, “I am very excited to join Stellant Systems and embrace the opportunity to lead a very talented team of industry veterans in support of growing the business.”

### **About Stellant Systems**

Stellant Systems is a premier manufacturer of critical spectrum and RF power amplification systems to the space, defense, medical, science and industrial markets for both domestic and international customers. Stellant has three domestic manufacturing facilities and approximately 800 employees.
